

LET IT RIDE BONUS POKER

Let It Ride Stud Poker offers the opportunity to control two of the three bets wagered on an exciting new poker game. It's enjoyable and easy to learn. It is based on the Five Card Stud Poker game. Players do not play against the dealer or any other player.

The Three Card Bonus side bet rewards players if their first three cards are a pair or better. This wager is made at the beginning of the game when the standard and Let It Ride Bonus wagers are placed.

All bets must be placed prior to the dealer announcing "no more bets." Each player places three equal bets in the spaces indicated "1," "2" and "\$."

Each player and the dealer receives three cards face down.

You are not playing against the dealer or other players. You are simply trying to get a good poker hand by using your three cards and two community cards, which are exposed by the dealer.

Each player is required to keep their three cards in full view of the dealer at all times.

Winning hands are paid according to the payout schedule (pair of 10s or better, two pair, etc.)

After looking at your first three cards, you may ask for your first bet back or "let it ride."

One of the dealer's community cards is then turned up. You may then ask for your second bet back or "let it ride." After you have made a decision regarding bet number two, your cards will be placed face down on the designated area of the layout and you may not touch the cards again.

The dealer then turns up the second community card and then each player's three cards - the dealer then pays all winning hands according to the payout schedule.

Regardless of the decision made concerning your first or second bet, you may not take back your third bet.

Players cannot show their hands to other players.

Players may also make an optional three card poker wager based on their three cards only.
