

FOUR CARD POKER

It's a thrilling new game. One that takes skill, patience, and nerve. And it pays out handsomely in excitement.

Four Card Poker features head-to-head play against the dealer and an optional side bet. It's similar to Three Card Poker but with one major difference: In Three Card Poker, the play wager must equal the ante; in Four Card Poker, players may bet up to three times their ante when staying in the game.

The object when playing against the dealer is for the player to form a four-card poker hand higher than or equal in rank to the dealer's hand. Players use their best four of five cards dealt, whereas the dealer uses the best four of six cards dealt.

To play against the dealer, you must make an ante wager. After being dealt a hand of five cards face down, you can:

- Fold (forfeit) your hand and ante wager.
- Continue playing by placing a play wager in an amount at least equal to the ante and up to three times the ante.

The ante and play wins 1 to 1. *PLAYERS WIN TIES.*

Players who place an ante wager and play wager win an automatic bonus payout on the ante wager for the following premium hands:

Four-of-a-kind	25 to 1
Straight Flush	20 to 1
Three-of-a-kind	2 to 1

Automatic bonuses are paid even if the dealer has a better four card hand.

A player may place an optional aces up side bet to win an additional payout based on the player's best four-card poker hand. If the player's hand contains a pair of aces or better, the player wins the aces up wager.

The payout for the aces up wager is as follows:

Four-of-a-kind	50 to 1
Straight Flush	40 to 1
Three-of-a-kind	7 to 1
Flush	5 to 1
Straight	4 to 1
Two Pair	3 to 1
Pair of Aces	1 to 1

THREE CARD POKER

Three Card Poker is a new and exciting variation to Poker. Each player and the dealer receives three cards.

When comparing two hands that are of identical poker hand rank, the hand that contains the highest ranking card shall be considered the highest ranking hand. (If the hands are identical after this application, the hand shall be considered a push.)

WAGERS

1. Place an ANTE wager to play against the dealer ONLY.
2. Place a PAIR PLUS wager ONLY.
3. Place a PAIR PLUS and ANTE wager to play BOTH against the posted payout and against the dealer. (In order to make a Pair Plus wager, player must have an Ante wager.)

HOW TO PLAY

To play against the dealer, you must make an ANTE wager prior to the dealer announcing "no more bets." After viewing your three cards, you have the option to either place a PLAY wager equal to the ANTE wager or forfeit your ANTE and if applicable, your PAIR PLUS wager. The dealer must have Queen High or Better to play. If the dealers hand does not contain a Queen High or Better, your ANTE wager wins 1 to 1 and your PLAY wager is returned. If the dealer's does contain a Queen High or Better and the player's hand beats the dealer's hand, the PLAY wager is paid 1 to 1 and the ANTE wager is paid 1 to 1. In the event of a TIE, then it is a PUSH and wagers are returned.

The OPTIONAL PAIR PLUS WAGER allows you to bet the ranked value of the hand against the posted payout and is NOT in competition against the dealer's hand. An ANTE wager does not have to be placed in conjunction with the PAIR PLUS wager. The payout for the PAIR PLUS wager shall be as follows:

Pair	1 to 1
Flush	3 to 1
Straight	5 to 1
Three-of-a-kind	25 to 1
Straight Flush	35 to 1
Mini Royal Flush (ace, king, queen)	35 to 1

A player placing an ANTE wager and a PLAY wager shall be paid an ANTE BONUS if the player's hand consists of the following:

Straight	1 to 1
Three-of-a-kind	4 to 1
Straight Flush	5 to 1

** If the player makes a ANTE wager and a PAIR PLUS wager but fails to make a PLAY wager, the player shall forfeit both the ANTE wager and the PAIR PLUS wager. Only players who are seated may wager at the game. Once a player has placed a wager and received cards, that player must remain seated until the competition of the round of play.
