

FOUR CARD POKER

It's a thrilling new game. One that takes skill, patience, and nerve. And it pays out handsomely in excitement.

Four Card Poker features head-to-head play against the dealer and an optional side bet. It's similar to Three Card Poker but with one major difference: In Three Card Poker, the play wager must equal the ante; in Four Card Poker, players may bet up to three times their ante when staying in the game.

The object when playing against the dealer is for the player to form a four-card poker hand higher than or equal in rank to the dealer's hand. Players use their best four of five cards dealt, whereas the dealer uses the best four of six cards dealt.

To play against the dealer, you must make an ante wager. After being dealt a hand of five cards face down, you can:

- Fold (forfeit) your hand and ante wager.
- Continue playing by placing a play wager in an amount at least equal to the ante and up to three times the ante.

The ante and play wins 1 to 1. *Players Win Ties.*

Players who place an ante wager and play wager win an automatic bonus payout on the ante wager for the listed premium hands.

4 OF A KIND	25 TO 1
STRAIGHT FLUSH	20 TO 1
3 OF A KIND	2 TO 1

Automatic bonuses are paid even if the dealer has a better four card hand.

A player may place an optional aces up side bet to win an additional payout based on the player's best four-card poker hand. If the player's hand contains a pair of aces or better, the player wins the aces up wager.

4 OF A KIND	50 TO 1
STRAIGHT FLUSH	40 TO 1
3 OF A KIND	7 TO 1
FLUSH	5 TO 1
STRAIGHT	4 TO 1
TWO PAIR	3 TO 1
PAIR OF ACES	1 TO 1

The payout for the aces up wager is as listed.
