

- If the player's hand beats the dealer's qualifying hand with less than a straight, their "Ante" and "Raise" wagers will be paid even money and the "Odds" bet is a "push." If a player's winning hand is a straight or better, the "Ante" and "Raise" wagers are paid even money, and the "Odds" wager is paid at the posted odds. If the dealer beats the player, the "Ante," "Raise," and "Odds" wagers are lost, unless the player has a straight or better. If the dealer beats the player's straight or better, the player loses the "Ante" and "Raise" bets, but wins a Bad Beat Bonus on their "Odds" wager. If the dealer and player have equal hands, it is considered a "Push" and no money is won or lost.
- If a player makes an optional Trips Plus or Pocket Pair wager, it wins or loses based on the corresponding pay table below. The player does not need to beat the dealer to qualify for these bonus bets. Player must remain seated until their hand is paid or player forfeits all wagers.
